

4 Wheel Electric Water Flushing Vehicle(Koala)

	External Disconsis of Lands 11	2550 × 4440 × 4700 ×
Vehicle Basic Parameters	External Dimension(L x W x H)	3550 x 1440m x 1790m
	Nos of Passenger	2
	Front Tread	1140
	Rear Tread	1140
	Wheel Base(mm)	2280
	Max Mileage(Without Load) (Km)	80
	Max Speed (Km/h)	30
	Min Turning Radius(m)	5
	Max Turning Angle(Degree)	45
	Gradeability	10 degree
	Volume o Water Tank(L)	About 800 Liter
	Vehicle Weight (Kg)	860
	Load Capacity(Kg)	900
	Ground Clearance(mm)	140mm
	Min Braking Distance(m) at V=20Km/h	6
	Chassis	Heavy duty, with hydraulic braking systems
	Cilassis	
		Laminated glass panel, with wiper
	Front Wind Shield Driver's Cabinet	, , , ,
	Front Wind Shield	Laminated glass panel, with wiper
	Front Wind Shield Driver's Cabinet	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional
Vehicle Body Configurations	Front Wind Shield Driver's Cabinet Floor	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available
Vehicle Body Configurations	Front Wind Shield Driver's Cabinet Floor Dashboard	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer
Vehicle Body Configurations	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear,
Vehicle Body Configurations	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery
Vehicle Body Configurations	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional)
Vehicle Body Configurations	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity Driving Motor	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional) 48V 4.2KW DC Series motor
Vehicle Body Configurations Electric Power System	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity Driving Motor Controller	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional) 48V 4.2KW DC Series motor CURTIS 48V controller
Vehicle Body Configurations Electric Power System	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity Driving Motor Controller Power Transimission	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional) 48V 4.2KW DC Series motor CURTIS 48V controller Rear drive, stepless speed change 48V auto-cut charger for lead acid battery /
Vehicle Body Configurations Electric Power System	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity Driving Motor Controller Power Transimission Charger	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional) 48V 4.2KW DC Series motor CURTIS 48V controller Rear drive, stepless speed change 48V auto-cut charger for lead acid battery / Li-ion battery for fast charging available
Vehicle Body Configurations Electric Power System High Pressure	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity Driving Motor Controller Power Transimission Charger Petrol Engine	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional) 48V 4.2KW DC Series motor CURTIS 48V controller Rear drive, stepless speed change 48V auto-cut charger for lead acid battery / Li-ion battery for fast charging available HONDA GX390(13HP)
Vehicle Body Configurations Electric Power System High Pressure Flushing	Front Wind Shield Driver's Cabinet Floor Dashboard Mirrors Lamps and Signals Battery Capacity Driving Motor Controller Power Transimission Charger Petrol Engine High Pressure Pump	Laminated glass panel, with wiper Fiber glass body by integral moulding, doors optional Anti-slippery leather pad Fiber glass material, with speedo meter, battery indicator, current meter, combination buttons, etc. Available Headlamp, left/right indicators in front and rear, position lamp, brake lamp, horn and reverse buzzer 48V 180Ah Gel SMF lead acid battery(Li-ion battery optional) 48V 4.2KW DC Series motor CURTIS 48V controller Rear drive, stepless speed change 48V auto-cut charger for lead acid battery / Li-ion battery for fast charging available HONDA GX390(13HP) Italian AR pump
